GRAIN

We are paying highest market prices for good wheat. Feed wheat, white corn, yellow corn.

Rosser Milling Co., Appomattox, Va. (8-26-41c)

SETS PRICE RANGE ON CATTLE

The allowable range of prices for which each grade of live cattle can be sold is being fixed by Judge Fred M. Binn, director of the Office of Economic Stabilization. Within each grade price may fluctuate \$1.

Price ranges per hundredweight for various grades at Chicago are: choice, \$18 to \$19; good, \$14.25 to \$15.25; medium, \$12 to \$13; common, \$10 to \$11; cutter and bologna, \$8 to \$9.50; and \$8.50. The Price Administrator and the War Food Administrator are to determine and publish prices, other points in line with Chicago prices. As soon as practicable, the War Food Administrator is directed to put into effect a system of allocation of live cattle to slaughterers and feeders to maintain "equitable distribution of available supplies."

Russian Clergy Awarded Medal

Several members of the Russian Orthodox Church have been awarded the Leningrad Medal for helping to strengthen the defenses of the city and for collecting a fund to build a tank column for the Red Army, according to a Moscow announcement reported by the British radio.

Cattle Select Most Nutritious Pasture

Instinct Leads Them To 'Greenest Grass'

That "the grass is greener on the other side of the fence" for the cow is more than bovine fancy.

When the cow will risk injury from the grass on the other side, surely there must be some compelling force responsible, Dr. William A. Albrecht, chairman of the Department of soils, University of Missouri, asserts.

"Perhaps farmers have never thought that animal instinct and soil fertility are pointing out to them the best way to make a living," said Dr. Albrecht. "In this age of animal behavior, there is given to us a significant suggestion for making our shortage of labor more effective."

Recent soil studies using animals as means of measuring soil fertility have pointed out that the soil conditions which make the most effective means of soil fertility are those which make the most effective means of soil fertility.

One cannot deny that human life is held rather cheaply in many places. There is also the right of self-defense, but that is not the only exception; let us not attempt to justify any other.

Murder is more prevalent than most of us suppose. Some years ago we were told that 200 murders every forty minutes in our land. With the general increase of crime, the number of murders (which so often incites murder), the current figures would probably show an increase.

Do not forget the deaths, the destruction of life, by avoidable automobile accidents. Some of these were really murder because the one responsible drove with defective brakes, dangerous tires, or while he was drunk. The driver of such a car is a murderer.

Grains, such as corn, in the self-feeder, have been selected by hogs according to the soil treatment. Grains, such as corn, in the self-feeder, have been selected by hogs according to the soil treatment.

Guinea pigs have selected various grains with differences in choice according to the fertility of the soils growing them.

"Yes, the other side of the fence" is sought by the animal because it is better judgment as to the soil fertility, and therefore its better health, better growth, and more efficient reproduction are involved. The cows usually break out on to the highway or railroad right-of-way where crops have grown annually but have not been removed. Crops have not been removed. Crops have not been removed.

Just being angry—calling our brother "rascal" (the modern equivalent of which is "nobody there"), and calling him "thou fool," which classifies him as a "nobody there"—these are the three dreadfully downward steps to murder. And they begin in anger.

May God help those of us who have strong feelings that we may not yield them to the devil in such anger against our brother!

III. The Prevention of Murder (Matt. 5:23-28, 34-40).

Prevention with God means more than putting up a barrier to keep us from killing. He deals with the heart, and thus puts the whole life right. It is not even a question of how we may feel against our brother. If he has sinned against us, we are to do all we can to win him. He is not to be unreasonable, grasping, or unfair. However, the spirit that will win him is not that of retaliation or sudden submission to the inevitable, but rather a free and willing going even beyond what is required.

It is clear from other scriptures that our Lord does not mean that wicked and unscrupulous men are to be permitted to defraud and destroy God's people. At the same time, we must be careful not to explain away the heart of our Lord's instruction of this great commandment.

We who believe in Christ are to love as well as we can the enemies of our heavenly Father (v. 45), loving not only those who are kind to us, but even our enemies.

Sorghum syrup is not a good sweetener for fruits. It will cause a crowd out the delicate flavor.

To render fat cook it over very low heat until it is melted. Do not let fat smoke. Strain it through cheesecloth or old muslin. Cover the strained fat and keep it cool until used.
